Not “don’t be evil” anymore

endearingexotics 16m

I could be wrong but I thought I saw that phrase tossed around when talking about the Google AI Grant. I believe it was a previous google slogan but I’m not sure.

I’m sorry, but what is this? I’ve been here 5+ years and this is the first time I’ve heard of it.

Okay yeah, don’t be evil was google’s slogan till 2018. I guess they are talking about the AI Grant.

everyone’s fine with the CV I don’t see why this should

logically cause such an uproar..

The CV and Generative AI are very different. I believe that topic was covered in this post's replies.: **https://forum.inaturalist.org/t/what-is-this-inaturalist-and-generative-ai/66140** (This is also just the main topic to talk about the grant.)

I assume this is a response to me. I just posted a long critique of iNaturalist getting into bed with google genAI for their purposes of greenwashing. They immediately censored the post.
